/EINPresswire.com/ -- From April 27th
this year, Himi riders will be guided by
a [new VIP tier system](#).

The new VIP tier system separates the 70,000 riders into six different categories. While making the announcement, the Himiway spokesperson said that the instructions that are supposed to guide the new VIP tier system had been issued. The instructions cover three aspects: Ways to earn, VIP benefits and entry rewards, and VIP management regulations.

On ways to earn, Himi riders are offered different ways through which they can get Himi points. Customers can get at least \$28.50 worth of points, which translates to 2,850 Himi points. They can earn these by taking part in the event.

All customers have the capacity to reach the highest level without incurring additional costs. The point system promises customers 300 Himi points when signing up, placing an order, subscribing on [Youtube](#), celebrating a birthday, liking and sharing on Facebook, following on Instagram, and completing a questionnaire.

The VIP benefits reward system includes free parts and coupon codes. These are in addition to other available offers and gifts. A higher level guarantees the riders more rewards. The VIP levels range from Bronze, Silver, Gold, Titanium, Platinum, Diamond, and Brand Ambassador.

The upgrade from one level to another involves diverse activities. For instance, to get to the Titanium level, which has a milestone of 5,000, a rider needs to participate in marketing activities, buy an e-bike or a repeat purchase, and recommend it to friends. The entry reward for this level is a three percent discount for a bike purchase and a \$20 coupon.

For redemption purposes, the platform said that they have improved client interaction at Himiways. One needs to log into their Himiway account and follow the prompts.
