The automotive heat exchanger market consists of sales of automotive heat exchangers by entities (organizations, sole traders, partnerships) that are used to remove heat from the automotive mechanical systems. The automotive heat exchanger is a device designed for the automobile industry that allows heat to be transferred between two mediums at different temperatures. The mediums consist of fluids that are separated by a material such as metals with heat transfer properties and flow close to each other.

Global Automotive Heat Exchanger Market Trends

Product innovations have emerged as a key trend in the automotive heat exchanger market. Major companies operating in the automotive heat exchanger sector are focused on developing innovative heat exchangers to reinforce their position.

## Global Automotive Heat Exchanger Market Segments

The global automotive heat exchanger market is segmented:

By Design Type: Tube Fin, Plate Bar, Others

By Vehicle Type: Passenger Car, Light Commercial Vehicle, Heavy Commercial Vehicle

By Electric Vehicle: Battery Electric Vehicle (BEV), Hybrid Electric Vehicle (HEV), Plug-In Hybrid Electric Vehicle (PHEV)

By Application: Radiators, Oil Coolers, Intercoolers, Air Conditioning Systems, Exhaust Gas Heat Exchangers, Others

By Geography: The global automotive heat exchanger market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, Asia-Pacific accounts for the largest share.
