The sorghum seed market consists of sales of sorghum seeds by entities (organizations, sole traders, and partnerships) that refer to a type of corn that is grown in warm countries. Its grain is often made into flour or syrup. Sorghum is called a grain millet, Indian millet, milo, durra, cereal grain plant, and they are related to the grass family. It is a crucial grain and forages crop because of its high flexibility and suitability for rain-fed low-input agriculture.

Global Sorghum Seed Market Trends

Collaborations and partnerships have emerged as a key trend gaining popularity in the sorghum seed market. Major companies operating in the sorghum seed sector are focused on collaborations and partnerships to meet consumer demand and strengthen their position.
