The coating equipment market consists of sales of coating equipment by entities (organizations, sole traders, and partnerships) that are used for the application of the coating on a substrate. Coating equipment is used to coat machines, tools, instruments, and other items or articles that are intended for specific functions, services, purposes, or activities in order to protect them from corrosion or degradation and to extend their life span with lower maintenance and parts replacement costs.

[Global Coating Equipment Market Trends](#)

The strategic agreements between coating equipment manufacturers and end-use industry players have emerged as a major trend impacting the market. According to the coating equipment market research, major companies operating in the coating equipment sector are focused on strategic agreements to strengthen their position. Moreover, in October 2021, Michelman, a US-based chemical company has formed a partnership with CMS Industrial Technologies LLC, a US-based equipment supplier to manufacture coating equipment such as rod coaters, press rod coaters, blade coaters, spray coaters, and slide-angle testers. CMS will also provide engineering, replacement parts, and support.

Global Coating Equipment Market Segments

The global coating equipment market report is segmented:

By Coating Type: Powder Coating Equipment, Liquid Coating Equipment, Specialty Coating Equipment

By Material Type: Polyester, Polyurethane, Acrylic, PVC, Epoxy, Silicon

By Application: Brushed, Dipped Or Sprayed, Diffusion, Laser Processing, Plating, Thermal Spray, Vapor Deposition

By End Use Industry: Automotive, Medical, Aerospace, Industrial, Building And Construction, Marine, Electricals And Electronics, Other End Users

By Geography: The global coating equipment market analysis report is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, Asia Pacific accounts for the largest share.
