

Breach and Attack Simulation Solutions Market 2022: In-depth Research with Emerging Growth, Trends, Top Key Players 2028

Breach and attack simulation Market Trends: Rising complexities in security threat management

VANCOUVER, BC, CANADA, May 17, 2022 /EINPresswire.com/ --

The Global [Breach and attack simulation solutions Market](#) help in automatically detecting vulnerabilities in the enterprise's cyber defense by pretending to be an attacker and mimicking the likely attack paths that can be used by the hackers. Various organizations are seen to install these

solutions due to rising number of data breaching incidence and frequent cyberattacks. Factors such as rapid economic development, increasing investments by organizations to enhance data security, increasing penetration of internet, and rising adoption of Artificial Intelligence (AI), Internet of Things (IoT), and Machine Learning (ML) techniques are supporting market growth. In

“

Increasing need for managing regulations and compliances, increasing concerns about data breaching in various sectors such as IT, healthcare, banking & financial sectors”

Emergen Research

addition, increasing funds by public and private sectors and rising investments by market players to introduce new technologies and enhanced breach and attack simulation solutions is expected to fuel growth of global breach and attack simulation solutions market in the coming years.

Additionally, the report also gives an insight into product portfolios, costs, sales, production capacities, and market players. Raw materials, demand analysis, product flow, and distribution channels have been studied and surveyed extensively in this research report. The key growth trends

and opportunities are offered through a thorough investigation and examination of the market.

A detailed course of development is offered in the report along with insights into businesses connected with it, which include firms, industries, organizations, vendors, and local manufacturers.

However, dearth of skilled professionals to prevent cyberattacks, unawareness about enhanced cybersecurity technologies, and increasing security threats due to internal vulnerabilities such as careless employees or corruption of data by workers are key factors expected to hamper global market growth during the forecast period.

Some key highlights in the report:

- Among the components, the services segment revenue is expected to expand at rapid CAGR during the forecast period owing to rising demand for enhanced cybersecurity services by various small and larger organizations to strengthen data security.
- Based on deployment model, the cloud segment is expected to account for dominant revenue share over the forecast period. Factors such as increasing cyber threats across various sectors, increasing adoption of cloud-based services in order to improve business agility and favorable factors such as huge data storage, easy deployment, and cost-effectiveness are boosting segment revenue growth.
- Based on end use, the enterprise and data centers segment is expected to account for a significantly larger share between 2021 and 2028 owing to increasing adoption of advanced products and tools to reduce complex cyberattacks and secure confidential information from being misused by hackers.

The Breach and Attack Simulation Solutions research report also includes an insightful study of the prominent players of the industry along with their business overview, strategic planning, and business expansion plans adopted by them. This assists the readers and business owners in formulating strategic expansion and investment plans. The report focuses on mergers and acquisitions, joint ventures, collaborations, partnerships, corporate and government deals, and others. The report also talks about the expansions these prominent players are vying for in the key regions of the market. The report focuses on the detailed analysis of the technological and product developments undertaken by these companies.

The key companies studied in the Breach and Attack Simulation Solutions report are:

Attack IQ, CyCognito, DXC Technology, Cymulate, FireMon, Picus Security, Sophos, Qualys, Rapid7, SafeBreach, XM Cyber, ReliaQuest, Skybox Security, and BitDam.

On the basis of regional analysis, the market is segmented into the following regions: North America, Latin America, Europe, Asia Pacific, and Middle East & Africa. The market is expected to be dominated by North American nations closely followed by European countries. Asia Pacific is expected to show a significant growth owing to recent advancements and rising investments in the R&D sector.

For the purpose of this report, Emergen Research has segmented the global breach and attack simulation solutions market on the basis of components, deployment mode, application, end-use, and region:

Component Outlook (Revenue, USD Million; 2018–2028)

- Platforms and Tools
- Services
 - o Training
 - o On-demand Analyst

Deployment Mode Outlook (Revenue, USD Million; 2018–2028)

- On-premises
- Cloud

Application Outlook (Revenue, USD Million; 2018–2028)

- Configuration Management
- Patch Management
- Threat Management
- Others

End Use Outlook (Revenue, USD Billion; 2018–2028)

- Enterprises and Data Centers
- Managed Service Providers

The report addresses the following key points:

- The report provides a forecast of market drivers, restraints, and future opportunities for the Breach and Attack Simulation Solutions market
- The report further analyses the changing market dynamics
- Regional analysis and segmentation of the market with analysis of the regions and segments expected to dominate the market growth
- Extensive competitive landscape mapping with profiles of the key competitors
- In-depth analysis of business strategies and collaborations such as mergers and acquisitions adopted by the key companies
- Revenue forecast, country scope, application insights, and product insights

About Us:

Emergen Research is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyze consumer behavior shifts across demographics, across industries, and help clients make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Types, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market. Emergen Research has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provides our clients with the ability to secure an edge over their respective competitors.
