About The Global Outsourcing 100

The Global Outsourcing 100 and its sub-lists are essential references for companies seeking new and expanded relationships with the best companies in the industry. The lists include companies worldwide that provide the full spectrum of outsourcing services — not just information technology and business process outsourcing, but also facility services, real estate and capital asset management, manufacturing and logistics. They include not only today's leaders, but tomorrow's rising stars.

Companies of all sizes, from around the world and across the entire outsourcing industry - information technology outsourcing, business process outsourcing, facility services, real estate, design, testing, manufacturing and logistics, to name a few – can apply for inclusion on these lists. IAOP Membership IS NOT REQUIRED, nor is it considered in compiling the final lists.

To help ensure participation by a broad cross-section of the industry, The Global Outsourcing 100 list includes larger established global firms, referred to as 'Leaders,' smaller, faster-growing firms with less than \$50 million per year in revenue and/or fewer than 5,000 employees, referred to as 'Rising Stars,' as well as 'Advisors,' regardless of size.

Companies are first organized by Leader, Rising Star or Advisor criteria, then evaluated based on the four judging categories. The final list is composed of the top-scoring companies, regardless of type.

The online application mirrors top customers' work when considering potential outsourcing service providers and advisors. For 2022, four areas were considered and judged:

1. Customer References as demonstrated through value being created at the company's top

customers.

2. Awards and Certifications as demonstrated through the value being created through industry recognition and relevant organizational and individual professional certifications.

3. Programs for Innovation as demonstrated through specific programs and resulting outcomes that produce new forms of value for customers.

4. Corporate Social Responsibility (CSR) as shown through corporate programs and outcomes that address such topics as community involvement and development, labor practices, human rights, fair operating practices, environmental impacts, consumer issues, and organizational governance.

Judging is based on a rigorous scoring methodology that includes an independent review by a panel of IAOP customer members with extensive experience in selecting outsourcing service providers and advisors for their organizations.

The aggregate scores from the areas above determine inclusion on the lists. All companies included on the list have demonstrated their global excellence. Full "stars" are awarded to all companies distinguishing themselves in one or more judging categories.
