

SciCorp Wins Water Dragon Competition for Solving Wastewater Odor and Improving Treatment Performance

Emerging company solves odor & treatment issues in wastewater plants, digesters, lagoons pulp and paper plants with their plant-based micronutrient technology

MISSISSAUGA, ONTARIO, CANADA, May 24, 2022 /EINPresswire.com/ -- SciCorp International

We are extremely proud to have been selected as the winner of this year's event. BIOLOGIC™ SR2 has been used in WWTPs around the world providing a much-needed solution for odor and treatment issues"

Derk Maat

virtually took the stage for the UK Water Dragon Competition on March 22, 2022. They were one of six other firms selected to pitch their innovations to UK-based water and wastewater stakeholders in a "Dragon's Den" style event.

SciCorp is an emerging company that solves odor and treatment issues in wastewater treatment plants, digesters, lagoons, and pulp and paper plants. The company has worked with hundreds of facilities using their plant-based micronutrient technology BIOLOGIC™ SR2 to stop odor, improve treatment performance, and reduce

facility carbon footprint.

BIOLOGIC™ SR2 has an extensive track record; it has been proven to stop odor complaints, reduce energy demand by 25%, and to reduce biosolids disposal by 25%. This really impressed the judges.

For more information on SciCorp's innovative technology visit the company website at www.SciCorp.net

Quick Facts about BIOLOGIC™ SR2:

- Significantly reduces odors (stops odor complaints)
- Increased removal rates of BOD, COD, TSS, P, Total N
- Reduces D.O. demand and aeration costs
- Reduces the volume of sludge produced
- Reduces formation of ammonia & H₂S
