The airport moving walkways market consists of sales of airport moving walkways by entities (organizations, sole traders, partnership) that are made up of slow-moving conveyor systems that transport people over horizontal or inclined planes over a shorter distance and assist people in reaching the desired location at airports. They are installed in pairs with opposite directions of rolling with safety handrails alongside. They are also known as flat escalators or travelator machines.

## [Global Airport Moving Walkways Market Trends](#)

Partnership and collaboration are one of the key airport moving walkways market trends gaining popularity. The companies operating in the airport moving walkways market are partnering with technology companies to improve the operational capabilities and performance of their existing products. For instance, Telefónica, a European provider of broadband and telecommunications solutions partnered with Schindler to provide network and IoT connectivity to Schindler's wide range of smart escalators and elevators named Schindler Ahead. Schindler Group is a Switzerland-based manufacturer of moving walkways, elevators, and escalators.
