

Equator Launches Affordable Cigar Home Storage Solution For Avid Collectors

Featuring 1.4 cubic feet of space, the CH 140 Cigar Humidor boasts accurate humidity controls, anti-UV glass, and an LED display with touchpad controls.

HOUSTON, TEXAS, UNITED STATES OF AMERICA, May 19, 2022

/EINPresswire.com/ -- Offering some of the most advanced environmental controls available for home [cigar storage](#), the Equator Advanced Appliances CH 140 [Cigar Humidor](#) is a groundbreaking new device. Designed with innovative features that are usually only available on expensive commercial units, this model makes it easy and affordable to store and age cigars in an ideal setting.

“Cigar aficionados have already expressed their delight with the CH 140

Cigar Humidor,” said Nick Mathews, of Equator Advanced Appliances. “We’ve created this affordable home humidor to have electronic humidity controls, an intuitive touchpad, and other exceptional features. This unit is one of the most attractive and elegant ways to showcase your entire cigar collection.”

Two of the most notable features are the single temperature zone controls, as well as the electronic humidity setting. Using the simplified touchpad controls, the interior of the humidor can be set between 59F and 72F. Additionally, individuals can achieve the optimal humidity range (between 65% and 75%) using the same touchpad. With a few button clicks, collectors can create the perfect environment for their cigars.

The freestanding unit operates using reliable compressor cooling. Its removable water container helps maintain consistent humidity levels, and is easy to clean as needed. Expertly designed to

Equator Cigar Humidor

preserve one's collection, the exterior features clear anti-UV glass, and an appealing stainless steel handle.

Inside the humidor, there is an interior LED light, which makes it easy to see inside without the harmful effects of fluorescent bulbs. Two aromatic cedar shelves provide ample storage and functionality, while adding complexity to the taste and aroma of cigars. The cedar wood shelves deliver the same sensory experience of walking into a full size humidor, making this unit a favorite among [cigar collectors](#).

Compact enough to fit into most spaces, the CH 140 measures 17.32 x 25 x 15. It has a net weight of 53 pounds, and provides 1.4 cubic square feet of space. This model is backed by Equator's one year parts and labor warranty.

The CH 140 Cigar Humidor is now available at an MSRP of \$579 for purchase on Amazon, Home Depot, Overstock, Lowe's, Wayair among others and also on Equator Advanced Appliances website.
