

Clean Energy Holdings, ING Americas, and Equix Kick-off 250 MW Green Hydrogen Alliance Project in Texas

HOUSTON, TEXAS, UNITED STATES, May 20, 2022 /EINPresswire.com/ -- Leading Edge of Liquefied Green Hydrogen

ING Americas (ING) has been engaged by Clean Energy Holdings, LLC (CEH) as its financial advisor in respect of the financing of projects by the Renewable Energy and Technology Alliance (The Alliance) being assembled by CEH. ING brings multiple areas of expertise to CEH's Platform and projects including advisory services and leading the capital raising requirements for the project.

Equix Inc., a well-established and highly respected infrastructure firm, is also joining The Alliance bringing industry leading execution experience

including Engineering, Procurement, and Construction (EPC) in both renewable energy and hydrogen facilities. Bair Energy, LLC (BE) joins The Alliance as the Program Management Construction Management (PMCM) and serves as The Alliance Representative for the CEH Platform. The Alliance is working with an experienced commodities group to market and lead offtake negotiations for its projects.

ING will take the lead in securing project financing for CEH's 250 MW Clear Fork, TX renewable energy supplied green hydrogen and liquefaction project. As one of the largest and leading green hydrogen developments in North America, the project has a baseline schedule slated to enter commercial operations in the third quarter of 2024. The project is expected to produce a levelized average of 30,000 kg a day of liquefied green hydrogen. The CEH Platform is designed to attract leading edge and emerging technologies to integrate into our projects for validation and certification.

CEO of Clean Energy Holdings, Nicholas Bair, stated: "Our Alliance is leading energy transformation, and we are committed to continue to lead the North American market in the production and implementation of green hydrogen for industrial, chemical, and mobility applications. We are also driving technological advancements developed through our projects. We have assembled a group of industry leaders as well as local and state governments to navigate through the potential challenges as we deliver our projects from concept to delivery and provide turnkey projects with a complete basis for design. Our Alliance delivers on contract and safety, with guaranties. This project is a strategic priority for The Alliance to showcase its turnkey design, long term operations and production guaranties."

CEH President, Cornelius Fitzgerald, added, "These early, large-scale, projects will help define the green hydrogen industry in North America. Our Alliance partners and advisors have been carefully selected as both best-in-class for their respective roles and dedication to make these projects a success."

Chair of Bair Energy the projects PMCM, Candice McGuire stated, "flawless project delivery is the focus of the CEH Platform and The Alliance to lead the nation in energy security."

Candice McGuire

ABOUT CLEAN ENERGY HOLDINGS

Clean Energy Holdings (CEH) is a renewable energy and technology platform focused on developing, owning, and operating leading edge, innovative and reliable renewable energy and low carbon facilities. CEH is a technology centric platform and, with our Alliance Partners, provides turnkey solutions for innovative projects like Clear Fork Green Hydrogen, the second Green Hydrogen project brought forward by CEH. Further, the CEH projects have been carefully selected to lead various State and Regional initiatives aimed to bring cost effective Green Hydrogen fuel to transportation corridors as well as industrial clients.
