Global FMCG Market: Synopsis

The global FMCG industry has gained major momentum in the recent past, owing to favorable factors such as booming global population, significant rise in demand for food globally, rapid

globalization, and paradigm shifts in consumer lifestyles and preferences. Rising demand for processed and packaged foods, increasing consumer awareness of health & hygiene, growing demand for personal care products, and rapid adoption of eco-friendly and sustainable product packaging solutions are other major factors accounting for the growth of this industry. Furthermore, the global FMCG industry growth is driven by increasing adoption of state-of-the-art technologies such as the IoT (Internet of Things), 3D printing, and robotics in the FMCG manufacturing sector and increased government investments in the development of FMCG logistics and transportation infrastructure.
