SUNRISE, FLORIDA, UNITED STATES,
May 20, 2022 /EINPresswire.com/ --

The most advanced [logistics technology](#) software on the market just got better. As more and more companies rely on e-commerce to meet customer demands, Zero Down [Supply Chain Solutions](#) and their proprietary technology platform, FreightOptics, have stepped up to help out. The newly-released upgrades include an updated UI for easier navigation by mode, as well as enhanced search options for deeper data dives.

Since breaking into the logistics scene in 2016, FreightOptics has made it easy for shippers everywhere to gain complete supply chain visibility, providing millions of dollars in savings in just its first few years. As innovators in the logistics technology space, the team at [ZDSCS](#) are always looking to the future, but they never want to leave their customers behind. With that in mind, these new features make it even easier for clients to use the best-in-class capabilities of FreightOptics to draw actionable insights into their supply chains, and turn their own data into savings.
