

Rising Crowds In Recreational Events Driving Need for Crowd Control Barriers Says Fact.MR's Latest Survey

The global crowd control barrier market is estimated at US\$ 1.9 billion, and is predicted to surpass a valuation of US\$ 7 billion by 2032.

ROCKVILLE, MARYLAND, UNITED STATES, May 23, 2022

/EINPresswire.com/ -- Crowd control barriers prominently find application in two ways - temporary and fixed.

Majority of event organizers prefer to set up temporary barriers at their events. Events such as music concerts, dance shows, and sports events are key revenue providers that largely use these barriers to manage crowds. Further, rising use of crowd control barriers in public places such as airports, bus and railway stations, religious places, etc., is driving the market growth.

Crowd Control Barrier Market

Owing to a wide range of applications, the global crowd control barrier market is set to top a market valuation of US\$ 1.9 billion in 2022. Increasing footfall in shopping malls, amusement parks, pubs & restaurants, etc., is creating [demand for crowd barriers](#). Use of [steel](#) material in barriers will increase 2X and create an absolute dollar opportunity of around US\$ 1.9 billion over the forecast period, as per in-depth industry analysis by Fact.MR, a market research and competitive intelligence provider.

North America is the largest consumer as well as producer of crowd control barriers, owing to which, it acquired nearly one-third market share at the end of 2021. Emerging markets such as India and Thailand are expected to offer significant opportunities to manufacturers by providing various taxes and other benefits. These are markets with a large consumer base and low labor rate; this will provide long-term growth and higher revenue potential.
