The home care packaging market consists of sales of home care packaging products by entities (organizations, sole traders, and partnerships) that are produced with stable materials to preserve and safeguard the contents from microbial contamination while maintaining their quality. The home care packaging includes packaging of the products that are used for maintaining the hygiene and cleanliness of the households and protecting them from damage during transporting and storing them.

Global [Home Care Packaging Market Trends](#)

Collaborations and partnerships have emerged as a key trend in the home care packaging market. According to the global home care packaging market analysis, major companies are focused on strategic collaborations and partnerships to expand their reach and meet consumer demand. For instance, in December 2021, Sonoco, a US-based packaging company acquired Ball Metalpack, a US-based company that produces aerosol cans, closures, and other packaging components for \$1.35 billion in cash. This acquisition will boost Sonoco's consumer packaging division. Additionally, in August 2020, Sonoco, a US-based packaging company acquired Can Packaging, a France-based company that manufactures sustainable paper packaging for \$49 million. Sonoco gains numerous new inventions as a result of this strategic acquisition, including
