

# GoodFirms Leaders' Matrix Highlights Twenty Leading Cloud Computing Companies Across the Globe

Ranking criteria include a strict set of variables that check on the quality, reliability, experience, market reputation and client testimonials.

WASHINGTON DC, WASHINGTON, UNITED STATES, May 23, 2022 /EINPresswire.com/ -- [GoodFirms](https://www.goodfirms.com/), an internationally recognized B2B research, ratings, and reviews platform, announced the 2022 list of top 20 Cloud Computing Companies worldwide who are the latest qualifiers of its leaders' matrix analysis.

Cloud computing not just improves infrastructure but also drives transformation. The computing power that the facility offers enables data analysis at lightning speed. This means that companies adopting cloud computing services can handle any uncertainty efficiently in real-time," says [GoodFirms](https://www.goodfirms.com/). The companies listed here are most reliable for delivering excellent cloud computing solutions.

This list of Top 20 Cloud Computing Companies is from GoodFirms' Leaders Matrix methodology, which rigidly assesses each firm's capability to deliver services as per clients' requisites."

*GoodFirms Research*

GoodFirms recently carried out a detailed analysis and ranking of the global cloud computing agencies through its Leaders Matrix program. The assessment included an in-depth inspection of the cloud computing companies' service landscape, verified client reviews, experience in the domain, market, and competitive positioning. Such an

analysis brings out the strategic information about the vendor capabilities, competitive differentiation, and market position.

Post Covid, the market is witnessing an enormous demand for cloud computing companies.

Interestingly, several startup cloud computing companies are taking advantage of the increasing requisites of cloud computing solutions to mark their presence and create an impact.

The GoodFirms research team assessed the companies to find the top leaders in cloud computing companies based on their core competencies and a 360-Performance view. Each component integrates several factors that are considered to evaluate the legitimacy of competencies.

Further, based on the above-mentioned assessment process, each company is grouped into one of four different quadrants: Industry Contenders, Industry Leaders, Upcoming Achievers, and Market Influencers, where the service providers are mapped based on their areas of focus and their proven ability to deliver.
