The polished concrete market consists of sales of polished concrete by entities (organizations, sole traders, and partnerships) that manufacture polished concrete. Polished concrete involves a multi-step process consisting of mechanically grinding and honing the concrete and then polishing it with bonded abrasives to cut a concrete floor's surface. Polished concrete floors are used to make dull-looking concrete floors bright, polished, shiny, and attractive and bring it to a equal level by removing stains or any rough surface.

[Global Polished Concrete Market Segments](#)

The global polished concrete market report is segmented:
