The Daily Dirt: Can you dig it?

"The Daily Dirt is going to be the go-to app designed to make life easier for the backyard gardener," said Morning Ag Clips Publisher and President Kate Ziehm. "Let us give you back your time! No more sifting through online articles."

This new exciting resource can only be realized with the support of gardeners across the country. Morning Ag Clips has brought thousands of farmers a daily primer on what's going on in the agriculture industry. Now is the time to provide a similar service for gardeners, but take it one step further by providing educational resources available on-the-go, when they're needed most.

"With the right information, and the right tools, the more likely a gardener will succeed - and keep growing!" said Brittany Jenks, Managing Editor for the Morning Ag Clips. "That's exactly why this app is so important: it's going to give gardeners the tools to be successful."

Let's skip the scrolling and get back to what matters most: gardening.
