Healthcare Chatbots Market | Top Players are HealthTap, Inc., Woebot Labs, Inbenta Technologies Inc

Healthcare Chatbots Market Trends – The rise in the awareness of self-monitoring techniques in diagnosis and treatments.

VANCOUVER, BC, CANADA, May 25, 2022 /EINPresswire.com/ -- The global Healthcare Chatbots Market is forecasted to be worth USD 594.8 Million by 2027. The healthcare chatbots market is anticipated to expand exponentially over the forecast period. The growth in the demand for chatbots apps is due to the rise in internet penetration and usage of smart wellbeing devices, and increasing awareness of self-monitoring techniques in diagnosis and treatment. The rising need for virtual health assistance is expected to further drive market growth. During the forecast timeline, a lack of expertise in the development of chatbots is expected to hinder market growth.

Key Highlights from the Report
In February 2017, in a cash-and-stock deal valued at around USD 36.0 million, Nuance Communications acquired Noida-based mobile value-added services company carbon Tech Innovations. This is a tailored deal for Nuance that will further extend its current Value-Added Services and subscription business services portfolio, which is currently distributed throughout Latin America, Northern America, Europe, and Australia, and boost the carriers' services in India, Africa, and Southeast Asia.

During the forecast timeframe, the software segment is expected to dominate the market with a CAGR of 20.5%. The growth of diverse applications for patients and health care providers is expected to fuel segmental growth.

Over the forecasted period, the healthcare provider segment accounted for the largest market with a CAGR of 20.5%. Significant medical records, such as patient information, hospital inventory, billing records, and patient medical records, are managed by healthcare facilities. Increasing patient flows in hospitals and clinics will create tremendous demand for healthcare chatbot applications by offering interactive assistance for healthcare facility operations

The primary aim of the report is to offer a market overview, product scope, growth prospects, and risks. The report also offers in-depth information about each player in the global Healthcare Chatbots market along with its global standing, financial status, product launch, and business expansion plans among others. The market players are focused on developing various strategies such as partnerships, mergers and acquisitions, joint ventures, product launches, and research and development investments.
