FINDING EXTENDED STAY AND FURNISHED RENTALS IN SACRAMENTO

Here is background on this release. When foreigners and even US residents think of California, they often think of the "beach stereotype," that is Hollywood and the beaches of Southern California. As the seventh-largest economy in the world and the third-largest US state by area, however, California is heterogeneous in its regions. The Sacramento region, for example, is the gateway to the state government as well as the high technology regions just north of the city. In addition, it is home to major employers and many things to see and do. It is a tourist destination in its own right, and if one can locate extended stay or furnished rentals in Sacramento, one can enjoy both a home away from home and one of California's best cities to visit for business or pleasure.
