LONDON, GREATER LONDON, UK, May 26, 2022 /EINPresswire.com/ --

According to 'Maleic Anhydride Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026'

published by The Business Research Company, the [maleic anhydride market](#) size is expected to grow from \$3.07 billion in 2021 to \$3.22 billion in 2022 at a compound annual growth rate (CAGR) of 5.10%. The growth in the market is mainly due to the companies' resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The global maleic anhydride market size is expected to reach \$4.03 billion in 2026 at a CAGR of 5.73%. The rising demand for automobiles globally has contributed to the growth of the maleic anhydride market.

The maleic anhydride market consists of sales of maleic anhydride (MAN) by entities (organizations, sole traders, and partnerships) that are used for the manufacturing of unsaturated polyester resins (UPR), as lubricating oil additives, as dispersants, and corrosion inhibitors. It is a chemical intermediate formed after the oxidation of benzene or butane in the presence of a vanadium oxide catalyst. Maleic anhydride is a colourless or white solid, cyclic dicarboxylic anhydride organic chemical. MAN is used as a food preservative, flavour enhancer, and artificial sweetener after converting to maleic or fumaric acid and has broad applications in pharmaceuticals, agricultural products, and surfactants.

Global Maleic Anhydride Market Trends

Increased investments in research and development are a key trend gaining popularity in the

maleic anhydride markets. Major pharmaceutical companies operating in the maleic anhydride market are focused on exploring the potential of L-malic acid in dietary supplements. There has been a substantive demand for cardioprotective and immunity-boosting ingredients all over the world.

Global Maleic Anhydride Market Segments

The global maleic anhydride market is segmented:

By Type: Solid Maleic Anhydride, Molten Maleic Anhydride

By Raw Material: Benzene, N-Butane

By Application: Unsaturated Polyester Resin, Copolymers, Lubricant Additives, Alkyl Succinic Anhydrides, Malic Acid, Fumaric Acid

By End-User: Construction, Automobile, Food and Beverage, Oil Products, Electronics, Personal Care, Pharmaceuticals, Agriculture

By Geography: The global maleic anhydride market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, Asia-Pacific accounts for the largest share.
