According to 'Polycarbonate Sheets  
Global Market Report 2022 – Market  
Size, Trends, And Global Forecast 2022-

2026' published by The Business Research Company, the polycarbonate sheets market size is expected to grow from \$2.35 billion in 2021 to \$2.49 billion in 2022 at a compound annual growth rate (CAGR) of 5.88%. The growth in the market is mainly due to the companies' resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The global [polycarbonate sheet market](#) size is expected to reach \$3.04 billion in 2026 at a CAGR of 5.13%. Increasing demand from building and construction is contributing to the polycarbonate sheets market growth.
