

# SAVAVET, a division of SAVA Healthcare Ltd launches Earworks, first of its kind ear cleansing solution for dogs & cats

SAVAVET, a division of SAVA Healthcare Ltd launches "Earworks" an innovative first of its kind ear cleansing solution for dogs & cats,

PUNE, MAHARASHTRA, INDIA, May 26, 2022 /EINPresswire.com/ -- [SAVAVET](#), a division of SAVA Healthcare Limited, announced the launch of "[Earworks](#)", an innovative first-of-its kind ear cleansing solution for dogs and cats.

SAVAVET-EARWORKS

Earworks is an advanced ear cleanser that has anti-bacterial action, removes ear wax, and prevents otitis. It has neutral pH that is soothing and gentle to the ears and has a refreshing floral fragrance. Earworks can be used to clean ears in dogs and cats routinely, as a preventive for otitis, and as a pre-treatment in case of ear infections.

“

We are proud to launch one more innovative product in Indian market to address the unmet needs of Pet parents”

*Vinod Ramchandra Jadhav*

What makes Earworks unique is that apart from antibacterial, antiseptic action that it contains, Earworks also has anti-bacterial adhesive technology. Earworks contains three carbohydrates L-RHAMNOSE, D-GALACTOSE, and D-MANNOSE that block the lectin pathways on the surface of the pathogens. By doing so, Earworks does not allow the pathogens to bind with the glycoprotein on the skin. In this way, Earworks prevents bacterial adhesion.

"We are proud to launch one more innovative product in Indian market to address the unmet needs of Pet parents " said [Vinod Ramchandra Jadhav](#), Chairman – SAVA Healthcare Limited.
