

USD 5.64 Billion Opportunities in the EV Charging Infrastructure Market - Global Growth and Competitive Analysis to 2030

*Market Size – USD 5.64 Billion in 2020,
Market Growth – at a CAGR of 38.6%,
Market Trends – Increasing usage of V2G
electric vehicle charging stations*

VANCOUVER, BC, CANADA, May 26, 2022 /EINPresswire.com/ -- The [electric vehicle charging infrastructure market](#) size reached USD 5.64 Billion in 2020 and is expected to register a revenue CAGR of 38.6%, during the forecast period, according to latest analysis by Emergen Research. Increasing adoption of Electric Vehicles (EVs) is expected to drive market revenue growth, as carbon emissions continue to rise and more stringent norms are being deployed.

The market research report on Electric Vehicle Charging Infrastructure market, samples and measures quality data on the overall business environment for the forecast period 2021-2030. Comprehensive data on growing investment pockets evaluated in the report on Electric Vehicle Charging Infrastructure market are powered and backed by human answers.

Increased adoption of plug-in electric cars is being driven by rising levels of carbon emissions and other harmful pollutants produced by transportation fleets. As a result, demand for electric vehicle charging stations in both public and private locations is rising. Rising demand for green

energy is also expected to contribute to revenue growth of the market going ahead. Green energy is expected to play a key role in both public and private electric charging points.

Increasing adoption of EVs due to rising carbon emissions and demand for green energy are some key factors driving global electric vehicle charging infrastructure market growth

The report also offers in depth information about each player in the global Electric Vehicle Charging Infrastructure market along with its global standing, financial status, product launch, business expansion plans among others. The market players are focused on developing various strategies such as partnerships, mergers and acquisitions, joint ventures, product launches, and research and development investments.

The market players are focused on developing various strategies such as partnerships, mergers and acquisitions, joint ventures, product launches, and research and development investments.

Companies profiled in the global Electric Vehicle Charging Infrastructure market:

Chargepoint, Inc., Tesla Inc., Chargemaster Limited (BP Pulse), ABB Ltd, Electrify America LLC, EV Connect, Inc., Greenlots, SemaConnect, Inc., ClipperCreek, Inc., and Siemens AG.

Further Key Highlights

E-mobility service provider segment revenue is expected to expand at a significantly robust CAGR during the forecast period as E-mobility service providers offer optimal monetization, leading to increased network profitability, more freedom of choice, and improved electric fleet management.

Normal charge segment is expected to lead in terms of revenue over the forecast period due to rising demand for normal chargers among the working class owing to low cost, particularly in developing countries with larger demographics and increasing need for low-cost charging.

Asia Pacific is expected to account for a larger revenue share than other regional markets over the forecast period. Increasing demand for affordably priced electric vehicles for regular usage is expected to boost market revenue growth in this region.

Emergen Research has segmented the global electric vehicle charging infrastructure on the basis of provider, charging infrastructure, charging level, vehicle type, installation type, application, and region:

Provider Outlook (Revenue, USD Billion; 2017–2030)

Charging Point Operator

E-Mobility Service Provider

Charging Hubs

Charging Infrastructure Outlook (Volume, Million Units, Revenue, USD Billion; 2017–2030)

CCS

Chademo

Normal Charge

Tesla Super Charger

Type-2 (IEC 62196)

Charging Level Outlook (Volume, Million Units, Revenue, USD Billion; 2017–2030)

Level 1 (120 V)

Level 2 (240 V)

Level 3 (200V -600V)

Vehicle Type Outlook (Volume, Million Units, Revenue, USD Billion; 2017–2030)

Electric Bike

Plug-in Hybrid PEV

EV Passenger Cars

Heavy Delivery Vans

Others

Installation Type Outlook (Volume, Million Units, Revenue, USD Billion; 2017–2030)

Portable Charger

Fixed Charger

Application Outlook (Volume, Million Units, Revenue, USD Billion; 2017–2030)

Public

Private

Key Features of the Electric Vehicle Charging Infrastructure Market Report:

The report offers details about key drivers, restraints, opportunities, challenges, growth prospects, limitations, and threats

The report encompasses details about the key companies, product portfolio along with specifications, production valuation, and market shares

Evaluation of key current and emerging market trends and growth prospects

It also offers research-backed estimations for the forecast period of eight years, primarily to estimate the potential market growth

Brief overview of industry with regards to research and development, technological advancements, and product development

In-depth assessment of upstream raw materials, downstream buyers, demands, and current market scenario

Enquire for customization in Report @: <https://www.emergenresearch.com/request-for-customization/87>

Thank you for reading our report. The report can be customized as per requirement. Please get in touch with us for further inquiry and we will ensure you get the report best suited for your needs.

About us:

Emergen research is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely

focus on your purpose to locate, target and analyze consumer behavior shifts across demographics, across industries and help client's make a smarter business decision. We offer market intelligence studies ensuring relevant and fact-based research across a multiple industries including Healthcare, Technology, Chemicals, Types, and Energy. We consistently update our research offerings to ensure our clients are aware about the latest trends existent in the market.
