Key Highlights of Report

In February 2020, Arrow Solutions LLC was acquired by

Alaya Care Inc. The deal would expand and strengthen Alaya Care's product capabilities in the diverse and highly regulated health care landscape

The post-hospital applications segment is expected to lead the market, expanding at a CAGR of 40.3% during the forecast period, which is attributable to benefits of post-hospital applications such as expense reduction, error prevention, enhanced patient outcomes, preventive care, and efficient medication management.

The trauma segment is expected to lead the market during the forecast period. Surge in the number of roadway accidents in developing nations and rising need for post-hospital treatments are estimated to promote growth of this segment during the forecast period.

The cloud-based segment is expected to dominate the market during the forecast period, due to the advantages such as hosting emergency care apps in the cloud, including enhanced reliability, effective data processing, better safety, and enhanced accessibility.
