*98% of VEERUM employees say it's a great place to work, far surpassing the benchmark and helping secure a Great Place to Work® certification.*

CALGARY, AB, CANADA, May 30, 2022 /EINPresswire.com/ -- VEERUM, a global software-as-a-service (SaaS) provider is proud to announce that it has been certified as a Great Place to Work® after a thorough, independent analysis conducted by Great Place to Work Institute® Canada. This certification is based on direct feedback from employees, provided as part of an extensive and anonymous survey about their workplace experience.

To achieve a Great Place to Work® certification, employers must earn a trust index rating of at least 65 percent following an in-depth survey. The survey measures the levels of trust in the workplace by focusing on 5 key dimensions: Credibility, Respect, Fairness, Pride and Camaraderie. 98% of VEERUM employees said it's a great place to work, which is 38 percentage points higher than the [average Canadian company](#).

"The talented and diverse individuals at VEERUM make us great," said David Lod, VEERUM CEO. "They are truly at the heart of everything we do. We've worked hard to create and foster a culture of support, optimism, innovation, and dedication. Achieving this prestigious award is a testament that we are on the right track. We will continue to ensure our employee experience is positive and enriching. Thank you to the entire VEERUM team, whose dedication has enabled our company to accomplish this prominent recognition."

Nancy Fonseca, Senior Vice President of Great Place to Work® Canada, says that a great workplace is about the level of trust that employees experience in their leaders, the level of pride

they have in their jobs, and the extent to which they enjoy their colleagues. "Our data shows that great workplaces benefit from stronger financial performance, reduced turnover, and better customer satisfaction than their peers. What's more, work environments with trust at the foundation are ripe for innovation, agility, resilience and efficiency," Fonseca said.
