The intermodal market consists of sales of intermodal rail freight transportation services and related goods by entities (organizations, sole traders, and partnerships) that provide the transportation of freight in an intermodal container. In this mode, handling of the freight is not done manually when changing a rail carrier, thus increasing the security of the transported product substantially. Only goods and services traded between entities or sold to end consumers are included.

## Global Intermodals Market Trends

Organizations are implementing precision scheduled railroading that is gaining popularity in the intermodal market over recent years. Precision scheduled railroading (PSR) is a plan that includes centralizing operations, reducing staff, running less, heavier, faster trains, and optimizing the network to increase efficiency.

## [Global Intermodals Market Segments](#)

The global intermodals market is segmented:

By Type: Container-on-Flatcar (COFC), Trailer-on-Flatcar (TOFC)

By Destination: Domestic, International

By Application: Oil and Gas, Aerospace and Defense, Industrial and Manufacturing, Construction, Chemical, Food and Beverages, Healthcare, Others
