## India Food Service Market Trends:

The market is primarily driven by significant growth in the food and beverage industry. In line with this, the rising popularity of various food delivery applications is positively influencing the market across the country. Furthermore, the inflating disposable income of the consumers coupled with the shifting dietary preferences of the masses are catalyzing the uptake of food

service. Moreover, the rapid expansion of e-distribution channels is providing a boost to the market growth across the country. Some of the other factors contributing to the market include the widespread trend of socializing among working professionals and the growing popularity of international cuisines in India.
