The material handling market consists of sales of material handling machinery by entities (organizations, sole traders, or partnerships) that are engaged in manufacturing material handling machinery and equipment such as jib crane, pallet jack, vertical carousel, and others. Only goods and services traded between entities or sold to end consumers are included.

[Global Material Handling Market Trends](#)

Lithium-ion technology is an emerging trend in the material handling market. Li-ion batteries are environmentally friendly and offer higher energy densities than lead-acid or nickel-metal hydride batteries. It can store more electricity and is mostly preferred for electric vehicles that are used in material handling. Additionally, Lithium-ion batteries are lightweight, charge quickly, and doesn't require cool-down intervals.

[Global Material Handling Market Segments](#)

By Type: Automated Guided Vehicles, Automated Storage and Retrieval Systems, Trucks and Lifts, Cranes, Pallet Racking, Conveying Systems, Hoists, Others

By Operation: Assembly, Distribution, Transportation, Others

By End-User: Food and Beverages, Automotive, Construction, Consumer Goods and Electronics,

Pharmaceuticals, E-Commerce, Others

By Geography: The global material handling market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, Asia-Pacific accounts for the largest share.
