

Dental 3-Dimesional (3D) Printing Market is Rising CAGR of 20.7%-Industry Analysis, Development Trends & Driving Factors

Dental 3-Dimesional (3D) Printing Market Size, Share, Trends, Growth, Demands and Application

PUNE, MAHARASHTRA, INDIA, May 31, 2022 /EINPresswire.com/ -- An

influential [Dental 3-Dimesional \(3D\) Printing market](#) research report is of

huge importance for better understanding of the market which

leads to high business growth. It highlights public demands,

competencies and the constant growth

of the working industry, vibrant reporting, or high data protection services while analysing market information. A lot of hard work has been put together and no stone is left unturned

while generating this market research report. Dental 3-Dimesional (3D) Printing market report defines a chapter on the global market and allied companies with their profiles, which provides important data pertaining to their insights in terms of finances, product portfolios, investment plans, and marketing and business strategies.

Vat photopolymerization accounts for largest share of the technology segment in the dental 3-dimesional (3D) printing market due to broad applications in the manufacturing of dental implants, dentures, CMF (craniomaxillofacial) guides, prosthetics and implants, porous scaffolds, and dental restorations. Data Bridge Market Research analyses that the dental 3-dimesional (3D) printing market was valued at USD 2.1 billion in 2021 and is further estimated to reach USD 9.46 billion by 2029, and is expected to grow at a CAGR of 20.7% during the forecast period of 2022 to 2029.

Drivers

Rise in the Prevalence of Dental Caries and Other Dental Diseases:

Dental caries, often known as tooth decay, affect people of all ages. The global incidence of decaying and missing teeth (DMT) has risen rapidly in recent years, further accelerating market growth.

Growing Demand for Cosmetic Dentistry and Preventive Dental Care:

With rising disposable earnings comes a greater willingness to undergo costly cosmetic operations, particularly among the elderly. Dental restoration options and aesthetic treatments including teeth whitening and polishing are in high demand worldwide, which is further anticipated to propel the growth of the dental 3-dimensional (3D) printing market.

Increase in the Cases of Edentulism in the Elderly Population:

Edentulism (tooth loss) is a serious oral health concern among the elderly, the WHO estimates that 30% of people aged 65 and more are edentulous. This trend is predicted to increase the number of persons suffering from oral health problems, such as edentulism, as the elderly are more prone to different health diseases, including multiple dental ailments, further contributing to the market growth.

Opportunities:

In addition, the growing trend of CAD/CAM technology is further estimated to provide potential opportunities for the growth of the dental 3-dimensional (3D) printing market in the coming years.

Top Leading Key Players of Dental 3-Dimensional (3D) Printing Market:

3D Systems, Inc. (US)

General Electric Company (US)

Evonik Industries AG (Germany)

Stratasys Ltd. (Israel)

Renishaw plc (UK)

Roland DG Corporation (Japan)

SLM Solutions (Germany)

EnvisionTEC (US)

Institut Straumann AG (Switzerland)

Formlabs (US)

Prodways Group (France)

Regional Analysis/Insights:

The countries covered in the dental 3-dimensional (3D) printing market report are U.S., Canada and Mexico in North America, Germany, France, U.K., Netherlands, Switzerland, Belgium, Russia, Italy, Spain, Turkey, Rest of Europe in Europe, China, Japan, India, South Korea, Singapore, Malaysia, Australia, Thailand, Indonesia, Philippines, Rest of Asia-Pacific (APAC) in the Asia-Pacific (APAC), Saudi Arabia, U.A.E, South Africa, Egypt, Israel, Rest of Middle East and Africa (MEA) as a part of Middle East and Africa (MEA), Brazil, Argentina and Rest of South America as part of South America.

North America dominates the dental 3-dimensional (3D) printing market due to the rise in research and development proficiencies expenses. Furthermore, the growing incidence of dental disorders will further boost the growth of the region's dental 3-dimensional (3D) printing market during the forecast period.

Asia-Pacific is projected to observe significant amount of growth in the dental 3-dimensional (3D) printing market due to the rise in the government expenses in the healthcare sector. Moreover, the growing personal disposable income and increase in the geriatric population is further anticipated to propel the growth of the dental 3-dimensional (3D) printing market in the region in the coming years.

Chapters Covered in this Report:

Chapter 1: Market overview

Chapter 2: Global Induction Dental 3-Dimensional (3D) Printing market analysis

Chapter 3: Regional analysis of the Induction Dental 3-Dimensional (3D) Printing industry

Chapter 4: Market segmentation based on types and applications

Chapter 5: Revenue analysis based on types and applications

Chapter 6: Market share

Chapter 7: Competitive Landscape

Chapter 8: Drivers, Restraints, Challenges, and Opportunities

Chapter 9: Gross Margin and Price Analysis

New Business Strategies, Challenges & Policies are mentioned in Table of Content, Request TOC:
<https://www.databridgemarketresearch.com/toc/?dbmr=global-dental-3d-printing-market>

The study objectives of this report are:

To study and analyse the global Induction Dental 3-Dimensional (3D) Printing market size (value & volume) by company, key regions/countries, products and application, history data, and forecast.

To understand the structure of Induction Dental 3-Dimensional (3D) Printing market by identifying its various sub-segments.

To share detailed information about the key factors influencing the growth of the market
Focuses on the key global Induction Dental 3-Dimensional (3D) Printing manufacturers, to define, describe and analyse the sales volume, value, market share, market competition landscape, SWOT analysis and development plans in next few years.

To analyse the Induction Dental 3-Dimensional (3D) Printing with respect to individual growth trends, future prospects, and their contribution to the total market.

To project the value and volume of Induction Dental 3-Dimensional (3D) Printing sub-markets, with respect to key regions

To analyse competitive developments such as expansions, agreements, new product launches, and acquisitions in the Induction Dental 3-Dimensional (3D) Printing market.

To strategically profile the key players and comprehensively analyse their growth strategies.

The inception of DBMR has been backed by providing clients with a holistic view of market

conditions and future possibilities/opportunities to reap maximum profits out of their businesses and assist in decision making. Our team of in-house analysts and consultants works tirelessly to understand your needs and suggest the best possible solutions to fulfill your research requirements. Data collection from implementation vendors, service providers, and raw material suppliers to provide a clear perspective with Forecast period.

About Data Bridge Market Research, Private Ltd

Data Bridge Market Research Pvt Ltd is a multinational management consulting firm with offices in India and Canada. As an innovative and neoteric market analysis and advisory company with unmatched durability level and advanced approaches. We are committed to uncover the best consumer prospects and to foster useful knowledge for your company to succeed in the

market.

Data Bridge Market Research is a result of sheer wisdom and practice that was conceived and built-in Pune in the year 2015. The company came into existence from the healthcare department with far fewer employees intending to cover the whole market while providing the best class analysis. Later, the company widened its departments, as well as expands their reach by opening a new office in Gurugram location in the year 2018, where a team of highly qualified personnel joins hands for the growth of the company. "Even in the tough times of COVID-19 where the Virus slowed down everything around the world, the dedicated Team of Data Bridge Market Research worked round the clock to provide quality and support to our client base, which also tells about the excellence in our sleeve."
