Empowering artists to withstand the pressures and challenges of the music business are some of the things she focuses on. She also makes sure that they are not just about standing out but also about flourishing in a healthy and productive manner. Additionally, she teaches them to value authenticity and to never be afraid to compose and create new songs on their own. "We are there to perfect your performance and manifest your mindset to drive your music career forward," Dani explained.

While Dani is currently based in Nashville, she was originally from Philadelphia. As an indie-pop artist, she has been recognized for her passion and artistry across the country. Critics are quite fond of her and her creative works, enough to generate high praises from them published in Medium Magazine, Nashville.com, and Girl Boss, among others. They also highlighted how she managed to stand out in an industry that normally looks upon male executives for inspiration and direction.
