The increasing social acceptance of cannabis is the major factor fostering the growth of the cannabidiol (CBD) infused edible market. In addition to this, the increasing popularity of recreational marijuana and the increasing adoption of CBD in different verticals are other important factors acting as cannabidiol (CBD) infused edible market growth determinants in the forecast period of 2022 to 2029. Increasing demand for the cannabis products and increasing global healthcare spending has cushioned the overall growth of the market. Moreover, the rapid urbanization and growing number of population are estimated to accelerate the overall growth of the market. However, the high cost of the product is supposed to hamper the market's growth in the forecast period of 2022 to 2029. Moreover, the dearth of investment and funds in cannabis sector will impede the overall growth of the market.

Furthermore, the growing promotional activities in underdeveloped countries to spread awareness about CBD edibles will further generate various profitable opportunities for the cannabidiol (CBD) infused edible market in the forecast period of 2022 to 2029. On the flip side, the factors such as the increasing regulations along with rising side effects of cannabidiol (CBD) infused edible might also pose as a major challenge for the market growth rate.
