# Pyze and Virtusa Partner to Deliver Next Generation Process Intelligence Solutions for Application Modernization

Partnership to automate the capture and delivery of business process and business value analytics at each stage of Virtusa Triple R engagement

REDWOOD CITY, CALIFORNIA, UNITED STATES, June 1, 2022 /EINPresswire.com/ -- [Pyze](), the leading provider of Low-Code [Process Intelligence](), and Virtusa, a leading provider of enterprise transformational change, announced a partnership to provide cutting-edge enterprise modernization solutions aimed at

Interactive Process & Workflow Analysis

delivering process optimization as part of application modernization engagements. Businesses today require transformational change at a scale and speed that defies traditional ways of working and this partnership will allow businesses to address both their technical and process debts as part of modernization initiatives.

> As the leader in Process Intelligence and Business Value Analytics, Pyze complements Virtusa's strong digital engineering and industry expertise."
>
> *Scott Ritchie, VP Business Development*

Through this partnership, Virtusa [Triple R]() will further empower organizations to measure and improve the business performance of core processes, enhance user productivity, and maximize the ROI of transformation and modernization projects. The Pyze AI-driven platform will enable a data-driven process improvement approach which will map existing business processes, analyze risk associated with workflow variants, and identify bottlenecks for remediation. The Pyze AI Process Intelligence platform is used by Fortune 500 enterprise, government agencies, and the U.S. military to identify automation opportunities, implement workflow design improvements, and improve the efficiency of mission critical business functions.

As part of the partnership, Virtusa and Pyze will leverage their domain expertise to help global customers identify business process debt for digital transformation initiatives that span Recon, Refactor, and Replatform phases.

Tim Beachus, Senior Vice President, DPA, AI & Cloud Group Technology said, "Our partnership with Pyze will enable Virtusa to help customers tackle process debt with the same level of sophisticated capabilities that Triple R offers to remediate technical debt during modernization initiatives. The Pyze Process Intelligence Platform will enable Virtusa to baseline the business performance of processes during Recon, develop and measure KPIs to ensure success during Refactor, and enable continuous improvement during the Replatform phase and beyond.

Scott Ritchie, Vice President, Business Development, Pyze said, "We are delighted to partner with Virtusa to maximize the impact of digital transformation engagements by utilizing Process Intelligence to enable greater business agility, cost take out of existing services and improve the workflow design of systems during modernization. As the leader in Process Intelligence and Business Value Analytics, Pyze complements Virtusa's strong digital engineering and industry expertise. Through this partnership, we aim to enhance the business value of Virtusa's Recon, Refactor and Replatform (Triple R) modernization projects"
