

Dmitry Kaminskiy Presents Keynote Address at Davos Longevity Investment Summit During World Economic Forum 2022

Deep Knowledge Group's General Partner Dmitry Kaminskiy Presents Keynote Address at Davos Longevity Investment Summit During World Economic Forum 2022

DAVOS, SWITZERLAND, June 1, 2022 /EINPresswire.com/ -- Deep Knowledge Group General Partner [Dmitry Kaminskiy](#) delivered a keynote address on the current state and future of the Longevity Industry at the Davos Longevity Investment Summit during the World Economic Forum 2022.

Deep Knowledge Group is a consortium of commercial and non-profit organisations active on multiple fronts in the realm of DeepTech and Frontier Technologies (AI, Longevity, FinTech, GovTech, InvestTech), ranging from scientific research to investment, entrepreneurship, analytics, media, philanthropy and more.

“

Emerging Longevity Industry is a Multi-trillion Dollar Opportunity.”

Dmitry Kaminskiy

The Group is well known for its sophisticated DeepTech analytics, predictive forecasting and benchmarking, having received coverage as early as 2014 in bestselling books on the future of technology, including The Fourth Industrial Revolution by World Economic Forum Founder and Chairman Klaus Schwab.

During his keynote address, Kaminskiy presented key findings on major trends and developments shaping the 2022 Longevity Industry and investment landscape, outlining the Group's work in defining the sector, having coined and popularized the term 'Longevity Industry', and the developments which led to the Group's creation the largest Longevity Industry database (50,000 companies, 12,000 investors, and 1,200 R&D hubs distributed across 20 sectors and 160

subsectors, with over 9.5 million data points) assembled into one integrated [Longevity Industry Big Data Analytical System and Dashboard](#). Which is key component of Deep Knowledge Group's ongoing activities to support the industry's continued growth, and its pursuit of a truly ecosystemic approach through its various financial service divisions to establish an integral financial infrastructure to support the commoditization of the Longevity Industry as a new asset class.

Kaminskiy also unveiled key take-aways from the most recent outputs of the Group's 9-year journey to define the industry: his book, [Longevity Industry 1.0: Defining the Biggest and Most Complex Industry](#) in Human History (Second Edition) and Longevity Industry Journal 2022, a comprehensive 400-page overview of the current state of the industry developed by Deep Knowledge Group, Aging Analytics Agency and Longevity International Association.

In addition to Kaminskiy's keynote address, several other Deep Knowledge Group partners and executives were in attendance at Davos during the World Economic Forum's Annual Meeting, including Stefan Hascoet (Head of Deep Knowledge Ventures Suisse) and Cecelia Yu (Head of UK and Europe at Deep Knowledge Group and Managing Partner at Longevity.Capital). The team presented a variety of Group's new initiatives, analytical reports and IT-Platforms in other venues, including Deep Knowledge Analytics' Global GovTech Industry Landscape Overview 2022 and Deep Knowledge Philanthropy's Global Philanthropy Ecosystem and DeepTech for Social Good Landscape Overview 2022.

Deep Knowledge Group is a leading consortium of commercial and non-profit organisations

active on multiple fronts in the realm of DeepTech and Frontier Technologies (AI, Longevity, FinTech, GovTech, InvestTech), ranging from scientific research to investment, entrepreneurship, analytics, media, philanthropy and more.

Dmitry Kaminskiy is an innovative entrepreneur, investor, author and philanthropist dedicated to

impact investment and ethical business, with a focus on engineering the accelerated trajectory of progressive technological development for the benefit of humanity. He leads the activities of the consortium's investment arms - Deep Knowledge Ventures, focused on DeepTech and advanced science projects, and Longevity.Capital, which prioritizes the convergence of Longevity and Artificial Intelligence. In addition to his business experience, Dmitry is involved in several scientific endeavours. He has a major interest in anti-aging and healthy longevity, which is reflected in the full scope of his personal and professional activities. Dmitry Kaminskiy is author of the book 'Longevity Industry 1.0 - Defining the Biggest and Most Complex Industry in Human History'.
