Hyperscale Computing Market Research Current as Well as the Future Challenges:Microsoft Corporation, Amazon Web Services

Increasing adoption of IoT & big data technologies and rising number of hyperscale data centers are some key factors driving global hyperscale computing market

VANCOUVER, BC, CANADA, June 1, 2022 /EINPresswire.com/ -- The hyperscale computing market size reached USD 149.07 Billion in 2020 and is expected to register a revenue CAGR of 27.4%, during the forecast period, according to latest analysis by Emergen Research. Increasing penetration of internet of

Emergen Research Logo

things (IoT) devices and rising adoption of bid data technology are some key factors driving global hyperscale computing market revenue growth. Increasing demand for data management, need for storage, and rapid retrieval due to ongoing IoT trend across various industries, verticals, and sectors are driving urgent need for and deployment of hyperscale computing.

> Hyperscale Computing Market Size – USD 149.07 Billion in 2020, Market Growth – at a CAGR of 27.4%, Market Trends –Increasing integration of AI with hybrid cloud”

An excellent Hyperscale Computing Market report encompasses a comprehensive study of the current global market situation along with various market dynamics. To create this report, a detailed market analysis was conducted with input from industry experts. Depending on the customer demand, a lot of market, product and business related information has been gathered through this market report which ultimately helps businesses to create better strategies. All these features are strictly applied while creating the Universal Hyperscale Computing

Market research report for a client.

Some Key Highlights

Solution segment is expected to account for largest revenue share over the forecast period owing to rising focus towards hyperscale computing for providing computation, storage, and virtualization layers of infrastructure in single-solution architecture.

Large enterprises segment is expected to account for largest revenue share over the forecast period due to increasing focus towards improving application, rising need to implement robust and scalable cloud or distributed storage system to manage high volume data, and increasing adoption of hyperscale computing to increase processing power, storage space, and to optimize computational workloads.

Data segment revenue is expected to expand at a significantly steady CAGR owing to rising number of hyperscale data centers, increasing adoption of advanced data center technology for meeting growing need of data center performance requirements, and for providing energy efficient solutions.

IT and telecommunication segment is expected to lead in terms of revenue share due rising adoption of 5G technology, increase in data traffic, surge in the use of broadband services, increasing customer demands which is prompting telecom companies to modernize their networks and shift to virtualized and cloud architectures.

The report further studies the key companies operating in the industry and their company profiles, product portfolio, expansion strategies, and strategic alliances such as mergers and acquisitions, collaborations, and joint ventures, among others. It also offers insights into their market reach and global position, along with highlights about their achievements and financial standings.

Major Players/Manufacturers profiled in the report are:

Microsoft Corporation, Amazon Web Services Inc., Cisco Systems Inc., Google LLC, Apple Inc., International Machine Business Corporation (IBM), Dell Technologies Inc., Celestica Inc., Intel Corporation, and Hewlett Packard Enterprise Co.

Emergen Research has segmented the global hyperscale computing market on the basis of component, organization size, type, end-use, and region:

Component Outlook (Revenue, USD Billion; 2018–2028)

Solution

Server

Storage

Networking

Services

Installation and Deployment

Consultation

Support & Maintenance

Organization Size Outlook (Revenue, USD Billion; 2018–2028)

Large Enterprises

Small & Medium-Sized Enterprises

Type Outlook (Revenue, USD Billion; 2018–2028)

Cloud

Data

End-use Outlook (Revenue, USD Billion; 2018–2028)

BFSI

IT & Telecommunication

Retail & E-Commerce

Government & Defense

Research & Academics

Healthcare

Others

 A closer look at the aspects including but not limited to market segmentation by the end-user, end-use, geography, type, and application forms an integral part of the research report. In addition, in-depth analysis of critical factors such as spending capability, gross margin, business environment and profit for the forecast period 2021 - 2028 holds critical information and is based on curated facts and logical arguments. Importantly, validation of statistics recent acquisitions and mergers, collaborations and product launches serve as testimonials for stakeholders, field marketing personnel, product manufacturers and business evangelists on how a product will be positioned in the real world in years to come.

Major Regions Covered in the Hyperscale Computing Market Report:

North America

Europe

Asia Pacific

Latin America

Middle East & Africa

Quick Buy—Hyperscale Computing Market Research Report At:
https://www.emergenresearch.com/select-license/767

Key Reasons to Buy This Report:

The report presents a thorough examination of the Hyperscale Computing market, elaborating on its core segments. The report conducts historical and future assessments of the market dynamics and offers precise data in a well-organized order.

The report evaluates the most prominent market growth potentials, dynamic market trends, driving factors, restraints, investment opportunities, and threats.

The report is inclusive of an in-depth study of the industry variables, manufacturers' value chain, sales volume, market share, competitive landscape, and effective business tactics.

The report further identifies the key regions and segments dominating the market. These regions are foreseen to register fast-paced growth over the forecast duration.

Thank you for reading our report. Customization of the report is available according to the requirements of clients. In case of further queries about the report, do get in touch with us. Our team will make sure your report is tailored according to your needs.

About Us:

Emergen Research is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyse consumer behavior shifts across demographics, across industries, and help clients make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Types, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market. Emergen Research has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provides our clients with the ability to secure an edge over their respective competitors.
