

Premier Pallet Dispensers: Pallet Handling

Premier pallet dispensers are an essential piece of equipment for any business that relies on pallets to move their goods.

ELGIN, ILLINOIS, UNITED STATES, June 1, 2022 /EINPresswire.com/ -- [Pallet dispensers](#) are an important part of any warehouse or factory operation. They help to keep things organized and running smoothly by dispensing empty pallets when needed and storing them safely when not in use. Pallet dispensers from Premier Handling Solutions are some of the best on the market, offering a variety of features and benefits that make them ideal for any business.

Pallet dispensers are an essential piece of equipment for any business that relies on pallets to move their goods. They provide a quick and easy way to dispense pallets, without the need for manual handling.

Premier pallet dispensers are available in a variety of models to suit specific needs. Whether requiring a single, double-deep dispenser, or inline model, we can accommodate most requirements. All our dispensers are made from high-quality materials and are designed for long-term use. Our inline dispensers can integrate into an existing production line for easy automation.

Premier Single Deep Pallet Dispenser

DISPENSER

STAND ALONE PALLET DISPENSER

The Pallet Dispenser Overview:
Efficient pallet handling made easy with a Pallet Dispenser / Pallet Stacker.

There are many benefits to introducing a Pallet Dispenser or Pallet Stacker to your warehouse, picking operation, or facility process. It will not only improve the overall pallet movement processes, it will greatly improve employee safety due to reductions in manual pallet handling.

Machine Benefits

- Eliminate manual handling of pallets from stacks to the floor
- Will reduce employee injuries due to manual pallet handling
- Productivity increase due to less time or labor involvement
- Reduce wasted floor space used to store or stage pallet stacks
- Reduces pallet damage related issues
- Stand alone models provide simple stacking and dispensing at ground level
- Accommodates many pallet footprints and designs

Machine Features:

- 15 pallet capacity: 60" x 61" x 94" (approximate)
- 25 pallet capacity: 60" x 61" x 149" (approximate)
- Power supply: 1 Phase | 110-115 VAC | 15 Amp.
- Stand alone and inline solutions available
- Single and double deep models available
- Photo eye safety sensors with protective guarding
- Easy setup, installation and operation
- Touch panel controls with auto/manual functions
- Dispense/stack a pallet approximately every 6 sec. at ground level
- Hygienic: easy to clean
- Stainless steel: wash-down, cold temperature and additional environment packages available

Easy access with hand truck, electric jack or fork lift
