

Briotech included on EPA ListQ for emerging viral pathogen monkeypox and EPA claim for 2 min kill of COVID virus

Monkeypox Outbreak News: Briotech on EPA ListQ for emerging viral pathogens (monkeypox) and new EPA label claims including 2 min kill of COVID virus SARS-CoV-2

SEATTLE, WA, UNITED STATES, June 3, 2022 /EINPresswire.com/ -- The CDC has declared a [Level 2 alert for monkeypox](#) in the United States and for travel abroad and Briotech has been included on the new [US EPA ListQ](#) created for this emerging pathogen. The CDC and EPA recommend surface disinfection as part of the enhanced precautions to prevent transmission.

The EPA has also approved [new label claims](#) for Briotech Sanitizer + Disinfectant including:

- Kills SARS-CoV-2 in 2 minutes on hard, non-porous surfaces
- Electrostatic sprayer disinfectant
- DMRI Listed (Organic Materials Review Institute Certified Label)
- Use without PPE (personal protective equipment)

“Briotech Sanitizer + Disinfectant is one of the few products that has been shown to inactivate the actual SARS-CoV-2 virus and can now be part of the solution to curb the spread of the emerging monkeypox outbreak,” said Rick Lockett, CEO of Briotech.

Briotech Sanitizer + Disinfectant is available in the United States on [briotechusa.shop](#),

amazon.com, homedepot.com and HD Supply; and BrioAqua is available internationally at brioglobal.com.

Monkeypox disease is caused by the monkeypox virus. Briotech Sanitizer + Disinfectant kills similar viruses and therefore can be used against the monkeypox virus when used in accordance with the directions for use against Feline calicivirus, Strain F-9 (norovirus surrogate) on hard, non-porous surfaces. Refer to the CDC website at [cdc.gov](https://www.cdc.gov) for additional information.

No statements contained in this press release are meant to imply that Briotech HOCl is a treatment for monkeypox or COVID-19 or that its use would directly prevent the contracting of the disease.
