The specialized freight trucking market consists of sales of specialized freight trucking services and related goods by entities (organizations, sole traders, and partnerships) that provide over-the-road transportation of household and office goods.

[Global Specialized Freight Trucking Market Trends](#)

Truck transportation companies are widely using collision mitigation technology to reduce loss of lives and damages associated with accidents. Collision mitigation system detects the impending strike and alerts the driver about any collision. These systems are installed within the vehicle and in case of an imminent accident, they can take an action automatically without the driver's input. These systems are becoming standard inbuilt feature on many new trucks in many countries globally.
