

# Space Campers transforms the Cybertruck for the outdoor enthusiast

*A wedge-style camper designed to be a "Swiss Army Knife" for the Tesla Cybertruck*

SAN LUIS OBISPO, CALIFORNIA , UNITED STATES , June 2, 2022 /EINPresswire.com/ -- California startup [Space Campers](#) is maximizing the performance of Tesla's Cybertruck with a customizable wedge-style camper that's built to last a lifetime.

Enable adventure while sacrificing nothing. Space Campers' robust build uses aerospace-grade composites and manufacturing processes to put strength, precision, and durability first.

Load gear or gravel, Space Campers seamlessly integrates with the Cybertruck for full access to the truck bed, minimal drag, and a sleek appearance. Its electrical outlets, dimmable lights, induction cooktop, portable cooler, and water heater, among other accessories, are all compatible with Tesla's industry-leading battery pack for weeks of auxiliary camping power. Trek off the grid in confidence with a camper that's dependable and easy to customize.

Nearly every feature serves more than one purpose for a spacious and versatile build. The Murphy-Style bed is big enough for two and tucks out of the way for ample standing room with detachable hinges to become an exterior table. Bed extensions quickly transform into benches or work surfaces, and its built-in awning protects from the elements while putting the beauty of open spaces front and center.

Pull up anywhere and set up camp in minutes. With a flip of a switch, air-powered actuators use the Cybertruck's onboard compressor to open or retract the camper with ease. It's ready to go anytime, be it a trip down the coast or a lunchtime siesta.

Space Campers was designed for the long haul with quality materials and functional [features](#). Its

Pull up anywhere and set up camp in minutes with a camper that's built to last.

modular build opens the door for limitless personalizations with plug-and-play accessory kits that can be installed at any point down the road with basic household tools. As an investment in the Cybertruck, replacement parts will also be available online for straightforward repairs.

When the Cybertruck rolls out, so will Space Campers. To ensure priority fulfillment, [reserve](#) a camper today at [www.spacecampers.com](http://www.spacecampers.com)

#### ABOUT SPACE CAMPERS:

We're here to enhance the capabilities of electric vehicles in the great outdoors with a commitment to strength, endurance, and accessibility. Our campers are precision-built for a sleek aesthetic and take advantage of the Cybertruck's heavy-hitting battery pack for weeks of auxiliary camping power. Enable adventure, sacrifice nothing. Join us as we push the boundaries of personalization and reliability into the stratosphere.
