The school and employee bus services market consists of sales of school and employee bus services and related goods by entities (organizations, sole traders, and partnerships) that provide buses and other motor vehicles to transport pupils to and from school or employees to and from work.

Global [School And Employee Bus Services Market Trends](#)

School and employee bus service market is increasingly using enhanced safety features in the buses. The industry has begun using in-wheel alcohol detection systems against drunk driving. This technology consists of sensors that are placed into the steering wheel and help to detect the driver's skin oil and locks the bus before going on the road in case of alcohol detection. It enables to prevent unsafe and careless driving. These advanced technologies equipped in buses are drastically increasing the school and employee bus service market.

Global School And Employee Bus Services Market Segments
