The inland water transport market consists of sales of inland water transportation services and related goods by entities (organizations, sole traders, and partnerships) that provide inland water transportation of passengers and cargo on lakes, rivers, or intracoastal waterways. Inland waterways are stretches of water, not part of the sea, over which crafts of a carrying capacity not less than 50 tonnes can navigate when normally loaded.

Global [Inland Water Transport Market Trends](#)

Companies are recently encouraging lean and green inland transportation. According to the inland water transport market overview, for improved efficiency, companies are focusing on natural gas in shipping, improved vessel designs, efficient loading and unloading of cargo, and many more. The companies are also retrofitting old equipment in ships with emission reduction devices, hull cleaning and coating, and high high-performance propellers and nozzles. Certain advanced propulsion systems such as fuel cell hybrid drive technologies will be soon there in the market. With these efforts, the inland transport market is seeing a steady growth in the upcoming years.

Global [Inland Water Transport Market Segments](#)

The global inland water transport market is segmented:

By Type: Inland Water Freight Transport, Inland Water Passenger Transport

By Geography: The global inland water transport market analysis report is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, Western Europe accounts for the largest share.
