Inglewood Family Dental.

Interested parties who want to take advantage of the free teeth whitening for life at Inglewood Family Dental will find the process simple and convenient. When patients come in for their appointment, the Inglewood dental team takes an impression of their teeth to create custom whitening trays. Patients then receive the trays along with dental-grade whitening gel to take home. Once ready to use, all they need to do is apply a thin layer of the whitening gel to the

front surface of the trays and keep them in their mouth for a set duration (depending on the gel), and continue to use it until they get the desired results and the shade they want their teeth. When they run out of teeth whitening gel, Inglewood Family Dental will give them more on their next visit.

Along with the free teeth whitening for life, Dr. Arash and the multi-lingual team at Inglewood Family Dental strive to always provide complete dental care and quality customer service. Understanding that patients have different schedules and dynamic needs, the practice offers extended evening and Sunday hours, free consultations, senior discounts, direct billing, financing, and adheres to the new [Alberta Dental Fee Guide](#), ensuring that dental care is accessible to everyone.
