The remaining 40 NFTs will be available to [Whitelisted](#) users on a first come, first served basis. Each NFT will include a high definition photo file of the sculpture.

Also included in this collection and the highlight of the project is the 'one of one' 3D animated

version of 'The Fist' NFT that will also include the original 3D digital animation file, 5 high definition photo files of the sculpture and the actual miniature sculpture itself, presented in a premium gift box.

"Jasenko's sculptures are unique and I had the pleasure of seeing them in the flesh at the Small is Beautiful Miniature Art Exhibition in London recently. Creating the 3D animated version of the actual sculpture was a really exciting project for us and we are looking forward to the NFT launch and auction..." said Adam Leese, CEO of NFT Workx Ltd.
