"Microblading is ideal for a client who wants to fill in areas of the natural brow that are sparse, or missing hair in some areas," she says. "Not every person is a candidate for Microblading, so choosing a brow artist who knows multiple techniques to accomplish your goal is very important."

With ten years of experience behind them, the sisters have written a blog post featuring the [Top Ten Questions About Microblading](#).

"If Microblading is something you've considered in the past, you probably have plenty of questions to ask. Our blog provides a lot of information for you to consider, but we also suggest that you take advantage of our free About Face Pre-Consultation, which you can find on our website. About Face and Body has accumulated many 5-star reviews for Microblading:

"I love my new eyebrows (Microblading), I had them done yesterday. I was a little scared at first

because I heard it was painful however the numbing cream they used was great, felt no pain!  
Very knowledgeable and took time to explain everything. I would definitely recommend them!" –
