

Newborn Screening Market Size by Key Companies, Trend, Size, Forecasts and is Grow at a CAGR of 8.8% by 2029

Newborn Screening Market By Test Type, Technology, Product Type, Disease Type, Size, Share, Trends and Leading Key Players

NEW YORK, UNITED STATES, June 6, 2022 /EINPresswire.com/ -- [Newborn Screening market](#) research report

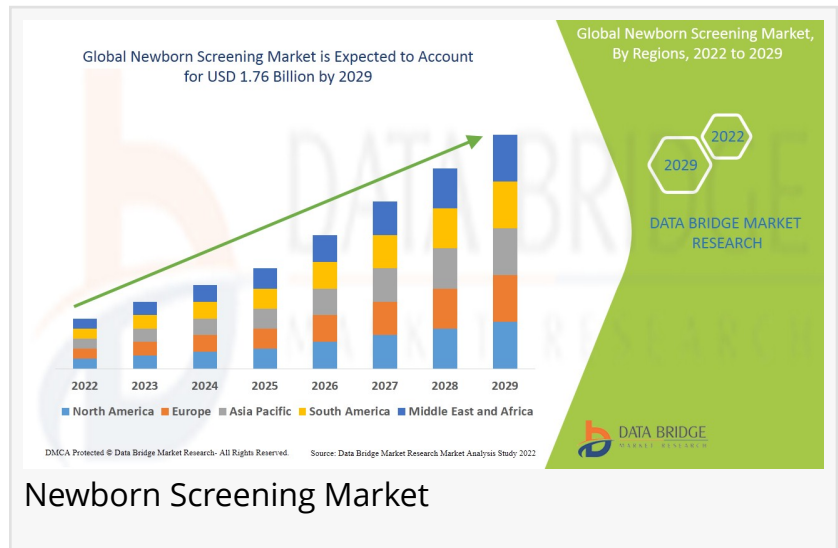

contains historic data, present and future market trends, environment, technological innovation, upcoming technologies and the technical progress in the allied industry. This

market report contains extensive study about miscellaneous market segments and regions, emerging trends, major market drivers, challenges and opportunities in the market. The report has been generated with the comprehensive market insights and analysis that offers superior perspective of the market place. Market segmentation has also been carried out extensively in Respiratory Monitoring Systems business report based on a variety of parameters that include applications, verticals, deployment model, end user, and geography.

The new-born screening market was valued at USD 0.9 billion in 2021 and is expected to reach USD 1.76 billion by 2029, registering a CAGR of 8.8% during the forecast period of 2022-2029. The "immunoassays and enzymatic assays" accounts for the largest technology segment in the [newborn screening](#) market within the forecasted period owing to wide usage of these assays to screen for disorders in newborns. The market report curated by the Data Bridge Market Research team includes in-depth expert analysis, patient epidemiology, pipeline analysis, pricing analysis, and regulatory framework.

With an influential Respiratory Monitoring Systems market report, the data and realities of the

healthcare industry can be focused which keeps business on the right path. All the parameters covered here are of immense use to analyses market status, market share, growth rate, future trends, market drivers, opportunities, challenges, risks, entry barriers, sales channels, and distributors. In addition, the company profile, product specifications, capacity, production value, and market shares for each company for the forecast period can also be achieved with this report. Respiratory Monitoring Systems market research report is a careful investigation of current scenario of the market and future estimations which deals with several market dynamics.

Key Market Players mentioned in this report:

Intelligent Hearing Systems Corp.

PerkinElmer Inc.

Natus Medical Incorporated

Trivitron Healthcare

Baebies, Inc.

Bio-Rad Laboratories, Inc.

Danahar

Hill-Rom Services Inc

Interacoustics A/S

Masimo

Newborn Screening Market Segmentation:-

By Types:

Dried Blood Spot Test, Hearing Screen Test, Critical Congenital Heart Diseases (CCHD) Test

By Application:

Critical Congenital Heart Diseases, Newborn Hearing Loss, Sickle Cell Disease, Phenylketonuria (PKU), Cystic Fibrosis (CF), Maple Syrup Urine Disease, Others

[Global Newborn Screening Market Scope:-](#)

The newborn screening market is segmented on the basis of test type, product type, technology, disease type and end user. The growth amongst these segments will help you analyze meagre growth segments in the industries and provide the users with a valuable market overview and market insights to help them make strategic decisions for identifying core market applications.

Test Type

Dried Blood Spot Test
Hearing Screen Test
Critical Congenital Heart Diseases (CCHD) Test

On the basis of test type, the newborn screening market is segmented into dried blood spot test, hearing screen test and critical congenital heart diseases (CCHD) test.

Product Type

Instruments
Reagents
Assay Kits

On the basis of product type, the newborn screening market is segmented into instruments, reagents and assay kits.

Technology

Tandem Mass Spectrometry
Hearing Screen Technology
Pulse Oximetry Screening Technology
Immunoassays and Enzymatic Assays
Electrophoresis
DNA-Based Assays

Disease Type

Critical Congenital Heart Diseases
Newborn Hearing Loss
Sickle Cell Disease
Phenylketonuria (PKU)
Cystic Fibrosis (CF)
Maple Syrup Urine Disease
Others

On the basis of disease type, the newborn screening market is segmented into critical congenital heart diseases, newborn hearing loss, sickle cell disease, phenylketonuria (PKU), cystic fibrosis (CF), maple syrup urine disease and others.

End User

Hospital
Paediatric Clinics

Clinics

On the basis of end user, the newborn screening market is bifurcated into hospital, paediatric clinics and clinics.

Post Covid-19 Impact on Newborn Screening Market:

The healthcare sector largely industry impacted by the outbreak of COVID-19. Imposition of the lockdown and social distancing restrictions by the government in travel, public gatherings, business operations, and shelter-in-place orders to curb the COVID-19 pandemic outbreak, led to limited or non-availability of medical facilities/treatment centers and also halt in various operations, reduced demand and supply chain disruptions, limiting the healthcare sector's expansion.

COVID-19 has had a minimal impact on the newborn screening business, and the market was still growing steadily. The market growth was still substantially rising because of newborns' illness cases. Legislation in key markets has already stressed the importance of newborn screening, with strict measures in place to monitor newborn health and protect babies from disorders like COVID-19. Many screening laboratories and government organizations educate parents about their children's health. A huge increase in diseases necessitated a large number of screening systems, propelling the fledgling screening business forward.

Newborn Screening Market, By Region:

Global Newborn Screening market is analyzed and market size insights and trends are provided by country, product as referenced above.

The countries covered in the Newborn Screening market report are the U.S., Canada and Mexico in North America, Germany, France, U.K., Netherlands, Switzerland, Belgium, Russia, Italy, Spain, Turkey, Rest of Europe in Europe, China, Japan, India, South Korea, Singapore, Malaysia, Australia, Thailand, Indonesia, Philippines, Rest of Asia-Pacific (APAC) in the Asia-Pacific (APAC), Saudi Arabia, U.A.E, South Africa, Egypt, Israel, Rest of Middle East and Africa (MEA) as a part of Middle East and Africa (MEA), Brazil, Argentina and Rest of South America as part of South America.

North America dominates the Newborn Screening market because of the rise in the cases of arrhythmic diseases, favorable reimbursement policies for patients, high demand for advanced treatment methods and developed healthcare infrastructure in the region. Asia-Pacific is estimated to grow in the forecast period due to the high prevalence of cardiovascular diseases, increase in adoption of advanced digital devices, large population and launch of new innovative products.

1 Introduction

1.1 Objectives of the Study

1.2 Market Definition

1.3 Overview of Global Newborn Screening Market

1.4 Currency and Pricing

1.5 Limitations

1.6 Markets Covered

2 Market Segmentation

2.1 Markets Covered

2.2 Geographical Scope

2.3 Years Considered For the Study

2.4 DBMR Tripod Data Validation Model

2.5 Primary Interviews with Key Opinion Leaders

2.6 Multivariate Modelling

2.7 Type Lifeline Curve

2.8 DBMR Market Position Grid

2.9 Vendor Share Analysis

2.1 Market End User Coverage Grid

2.11 Secondary Sources

2.12 Assumptions

3 Executive Summary

4 Premium Insight

5 Global Newborn Screening Market: Regulations

6 Global Newborn Screening Market: Pipeline Analysis

7 Market Overview

Key Questions Covered in the Newborn Screening Market Report

Identify potential investment/contract/expansion opportunities

Drive your strategies in the right direction by understanding the impact of latest trends, market forecasts on your Premium Lager business

Beat your competition through information on their operations, strategies and new projects

The report offers insight into Premium Lager demand outlook

The market study also highlights projected sales growth for Premium Lager Market

Premium Lager market survey identifies key growth drivers, restraints, and other forces impacting prevailing trends and evaluation of current market size and forecast and technological advancements within the industry

Premium Lager market share analysis of the key companies within the industry and coverage of strategies such as mergers & acquisitions, joint ventures, collaborations or partnerships, and others

Recent insights on the Premium Lager market will help users operating in the market to initiate transformational growth
