

Top Trends Driving the Global Healthcare Chatbots Market | Size Will Cross USD 594.8 Million by 2027 | Emergen Research

Market Growth - CAGR of 20.3%, Market Trends - The rise in the awareness for self-monitoring techniques in diagnosis and treatments.

VANCOUVER, BC, CANADA, June 6, 2022

[/EINPresswire.com/](https://www.einpresswire.com/) -- The

global [Healthcare Chatbots Market](#) is forecasted to be worth USD 594.8 Million by 2027, according to a current analysis by Emergen Research. The healthcare chatbots market is anticipated to expand exponentially over the forecast period. The growth in

the demand for chatbots apps is due to the rise in internet penetration and usage of smart wellbeing devices, and increasing awareness of self-monitoring techniques in diagnosis and treatment. The rising need for virtual health assistance is expected to further drive the market growth. During the forecast timeline, a lack of expertise in the development of chatbots is expected to hinder the market growth.

“

The increasing internet penetration, rising usage of smart well-being devices, and the rising need for virtual health assistance are driving the demand for the market.”

Emergen Research

Some Key Highlights from the Report

In February 2017, in a cash-and-stock deal valued at around USD 36.0 million, Nuance Communications had acquired Noida-based mobile value-added services company mCarbon Tech Innovations. This is a tailored deal for Nuance that will further extend its current Value-Added Services and subscription business services portfolio, which is currently distributed throughout Latin America, Northern America, Europe, and Australia, and boost the carriers' services in India, Africa, and Southeast Asia.

During the forecast timeframe, the software segment is expected to dominate the market with a CAGR of 20.5%. The growth of diverse applications for patients and health care providers is expected to fuel segmental growth.

Over the forecasted period, the healthcare provider segment accounted for the largest market with a CAGR of 20.5%. Significant medical records, such as patient information, hospital inventory, billing records, and patient medical records, are managed by healthcare facilities. Increasing patient flows in hospitals and clinics will create tremendous demand for healthcare chatbot applications by offering interactive assistance for healthcare facility operations.

It is expected that North America will have the largest market over the forecasted period. Insurance providers such as Medicaid and Medicare are decreasing the operating expenses of procedures that lead to inflows from clinics and ambulatory surgical services.

Leading Companies of the Healthcare Chatbots Industry and Profiled in the Report are:

HealthTap, Inc., Woebot Labs, Inbenta Technologies Inc., Infermedica Sp. Z o.o, Ada Health GmbH, Nuance Communications, Inc., Synthetix Ltd., PACT Care BV, Baidu, Inc., and Next IT Corporation, among others.
