“We scoured the globe looking for cybersecurity innovators that could make a huge difference and potentially help turn the tide against the exponential growth in cybercrime. CybeReady is absolutely worthy of this coveted award and consideration for deployment in your environment,” said Yan Ross, Editor of Cyber Defense Magazine.

The InfoSec Award judges are CISSP, FMDHS, and CEH certified security professionals who voted based on their independent review of the company submitted materials on the website of each submission including but not limited to data sheets, white papers, product literature and other market variables. CDM has a flexible philosophy to find more innovative players with new and unique technologies, than the one with the most customers or money in the bank. CDM is always asking “What’s Next?” so we are looking for best of breed, next generation InfoSec solutions.

“We’re thrilled to receive one of the most prestigious and coveted cybersecurity awards in the world from Cyber Defense Magazine, during their 10th anniversary as an independent cybersecurity news and information provider. We knew the competition would be tough and with top judges who are leading infosec experts from around the globe, we couldn’t be more pleased,” said Eitan Fogel, CEO of CybeReady.
