Global Market Report 2022: Market Size,
Trends, And Forecast To 2026*

LONDON, GREATER LONDON, UNITED
KINGDOM, June 7, 2022

/EINPresswire.com/ -- According to

'Photoresist & Photoresist Ancillaries
Global Market Report 2022 – Market

Size, Trends, And Global Forecast 2022-2026' published by The Business Research Company, the photoresist & photoresist ancillaries market size is expected to reach \$4.48 billion in 2026 at a CAGR of 6.5%. According to the global photoresist and photoresist ancillaries market analysis, the growing semiconductor sector is expected to propel the growth of the market in the coming years.

The photoresist & photoresist ancillaries market consists of sales of photoresist & photoresist ancillaries and related services by entities (organizations, sole traders, and partnerships) that manufacture photoresist and photoresist ancillaries which are used in wiring configuration in multi-layered semiconductors for manufacturing laptops, music players, mobile phones, servers and household machines among others. A photoresist is a natural polymer that improves its biochemical structure when exposed to ultraviolet light. Photoresist ancillary materials are used simultaneously with photoresists such as anti-reflective coatings, developers, photoresist strippers and edge bead removers.

[Global Photoresist & Photoresist Ancillaries Market Trends](#)

The expansion of production facilities is a key trend gaining popularity in the photoresist and photoresist ancillaries market. Major companies operating in the photoresist and photoresist ancillaries sector are focused on building new production facilities to meet the increased demand and strengthen their position in the industry. For instance, in December 2020, SK Materials, a South Korea-based Industrial gases company has opened a new production facility to develop and promote localized production of semiconductor raw materials such as photoresist and hard masks. The main objective of the company is to generate 50,000 gallons of

photoresist per year from 2022.

Global Photoresist & Photoresist Ancillaries Market Segments

The global photoresist & photoresist ancillaries market is segmented:

By Type: ArF Immersion, KrF, ArF Dry, g- and i-line

By Ancillaries Type: Anti-Reflective Coatings, Remover, Developer, Others

By Application: Semiconductors and ICS, LCDs, Printed Circuit Boards, Others

By Geography: The global photoresist & photoresist ancillaries market report is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, APAC accounts for the largest share.

Photoresist & Photoresist Ancillaries Global Market Report 2022 is one of a series of new reports from The Business Research Company that provides Global photoresist & photoresist ancillaries market overviews, analyzes and forecasts market size and growth for the global photoresist & photoresist ancillaries market, photoresist & photoresist ancillaries market share, Global photoresist & photoresist ancillaries market segments and geographies, Global photoresist & photoresist ancillaries market players, Global photoresist & photoresist ancillaries market leading competitor revenues, profiles and market shares. The photoresist & photoresist ancillaries market report identifies top countries and segments for opportunities and strategies based on market trends and key competitors' approaches.

TBRC's Photoresist & Photoresist Ancillaries Global Market Report 2022 includes information on the following:

Data Segmentations: Market Size, Global, By Region and Country, Historic and Forecast, and Growth Rates for 60 Geographies

Key Market Players: Tokyo Ohka Kogyo Co. Ltd., JSR Corporation, DuPont, Shin-Etsu Chemical Co. Ltd., Sumitomo Chemical Co. Ltd., Fujifilm Electronic Materials, Merck KGaA, Allresist GmbH, Micro Resist Technology GmbH, and Avantor Performance Materials Inc.

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

And so much more.
