Prollenium Medical Technologies  
Contura International Ltd.  
HUMEDIX (A Subsidiary of HUONS GLOBAL)  
Shanghai Reyounge Medical Technology Company Limited

### Global Dermal Fillers Market Overview:

According to Data Bridge Market Research, the global dermal fillers market in the North American region has the highest market share, followed by Europe and Asia-Pacific. The market leader Allergan (A subsidiary of Abbvie Inc.), accounts for an estimated market share of 33.20%. The company has continuously been involved in developing new products to increase its portfolio of dermal fillers.

Dermal fillers are substances designed to be injected into the skin to add fullness and volume. The substances used in dermal fillers include Calcium hydroxylapatite (a mineral-like compound found in bones), Hyaluronic acid, Polyalkylimide, Polylactic acid, Polymethyl-methacrylate microspheres (PMMA). Dermal fillers can be classified in several criteria, including the deep dermis, depth of implantation (superficial midterms and upper, and subcutaneous levels); longevity of correction (temporary and permanent); allergenicity, the composition of the agent (allografts, semi/fully synthetic, xenografts, or autologous). Also, one of the criteria is the stimulatory behavior (physiologic processes of endogenous tissue proliferation) versus replacement fillers (space-replacing effect).

Rising demand for anti-aging procedures is expected to increase the demand for the global dermal fillers market. The high cost of dermal fillers hinders the growth of the market. Advancement in the new dermal fillers acts as an opportunity for the global dermal fillers market. Increasing side effects of dermal fillers is one of the challenges of the market.

Now the question is which other regions Allergan (A subsidiary of Abbvie Inc.) and Galderma Laboratories, L.P., and Merz North America, Inc. (A Subsidiary of Merz Pharma) are targeting? Data Bridge Market Research has forecasted a large growth in the North American dermal fillers market. The market leaders are targeting Germany and the U.K. to be their next revenue pockets for 2021.

The global dermal fillers market is becoming more competitive every year, with companies such

as Allergan (A subsidiary of Abbvie Inc.), Galderma Laboratories, L.P., and Merz North America, Inc. (A subsidiary of Merz Pharma) are the market leaders for dermal fillers. The Data Bridge Market Research new reports highlight the major growth factors and opportunities in the global dermal fillers market.

## Market Developments of the Global Dermal Fillers Market

In October 2019, Galderma Laboratories, L.P, a global leader in skin health-focused on developing creative cosmetic approaches, continued to invest heavily in goods and testing that improve the beauty field, with seven new clinical studies recently launched. We are confident of our continuing investment in research and development and are eager to share results relevant to several clinical studies promoting our aesthetic portfolio at the ASDS meeting, where the product roadmap is set to deliver aesthetic innovations to address rising patient needs and help drive business growth. This clinical study will be a step closer to more product approval in the forecast period

In September 2019, Merz Pharma and oncotic made major Investments in Dessau BioPharmaPark to open a new dermal filling site. This will increase the capacity of production of dermal filler and will allow the company to fulfill the demand for dermal filler in the market and will contribute to the revenue of the company in the upcoming year

## Global Dermal Fillers Market Scope and Market Size

The global dermal fillers market is segmented based on type, product type, material type, drug type, application, end user, and distribution channel. The growth among segments helps you analyze niche pockets of growth and strategies to approach the market and determine your core application areas and the difference in your target markets.

On the basis of type, the global dermal fillers market is segmented into semi-permanent dermal filler, permanent dermal filler. In 2021, the semi-permanent dermal fillers segment is expected to dominate the market. They are mainly used in facial line improvement, wrinkles, and lip enhancement application areas, with fewer side effects and long-lasting bio-absorbent properties.

On the basis of product type, the global dermal fillers market is segmented into biodegradable dermal fillers, non-biodegradable dermal fillers. In 2021, the biodegradable dermal fillers segment is expected to dominate the market as these are more preferred over non-biodegradable fillers due to safety concerns. If any complications occur after the biodegradable injection administration, then these will disappear spontaneously.

On the basis of material type, the global dermal fillers market is segmented into natural dermal fillers and synthetic dermal fillers. In 2021, the natural dermal fillers segment is expected to dominate in the dermal fillers market due to their high compatibility with a human body, have minor possibilities of an allergic reaction, and side effects that can be easily removed after filler removal procedures.

On the basis of drug type, the global dermal fillers market is segmented into branded, generic. In 2021, the branded segment dominates the dermal fillers market as extremely competitive markets are inhibiting the generic version of drugs from developing, and physicians prescribe the branded drugs owing to the high incentives of the product. For these reasons, branded medicines are growing and dominating the market.

On the basis of application, the global dermal fillers market is segmented into facial line correction, face lift, scar treatment, lip enhancement, wrinkles, sagging skin, rhinoplasty, cheek depression, dentistry, reconstructive surgery, aesthetic restoration, others. In 2021, the facial line correction segment is expected to dominate the dermal fillers market due to higher process volume than other applications. Additionally, the increasing awareness of the benefits of dermal filler and the increased healthcare expenditure on an aesthetic non-surgical procedure also boost the demand for dermal filler during the forecast period.

On the basis of end user, the global dermal fillers market is segmented into dermatology clinics, ambulatory surgical centers, hospitals, and others. In 2021, the dermatology clinics segment is expected to dominate the market as redundant aesthetic procedures are performed in dermatology clinics. In addition, a growing number of specialized dermatology clinics in developing countries are also increasing the volume of the process, driving the market's growth.

On the basis of distribution channel, the global dermal fillers market is segmented into retail pharmacy, drug stores, and online pharmacies. In 2021, the drug stores segment is expected to dominate the market due to easy accessibility compared to other distribution channels. More drugs can be procured in direct and bulk form.

This global dermal fillers market report provides details of market share, new developments, and product pipeline analysis, the impact of domestic and localized market players, analyses opportunities in terms of emerging revenue pockets, changes in market regulations, product approvals, strategic decisions, product launches, geographic expansions, and technological innovations in the market. #### About Data Bridge Market Research, Private Ltd

Data Bridge Market Research Pvt Ltd is a multinational management consulting firm with offices in India and Canada. As an innovative and neoteric market analysis and advisory company with unmatched durability level and advanced approaches. We are committed to uncover the best consumer prospects and to foster useful knowledge for your company to succeed in the market.

Data Bridge Market Research is a result of sheer wisdom and practice that was conceived and built-in Pune in the year 2015. The company came into existence from the healthcare department with far fewer employees intending to cover the whole market while providing the best class analysis. Later, the company widened its departments, as well as expands their reach by opening a new office in Gurugram location in the year 2018, where a team of highly qualified personnel joins hands for the growth of the company. "Even in the tough times of COVID-19 where the Virus slowed down everything around the world, the dedicated Team of Data Bridge Market Research worked round the clock to provide quality and support to our client base, which also tells about the excellence in our sleeve."
