The storage and backup software market consists of sales of storage and backup software. The software provides users and programmers with a systematic way to create, retrieve, update and manage data. This software allows users to read, update and delete data, which can then be fetched directly and/or through programmatic access.

Global [Storage And Backup Software Market Trends](#)

One of the latest trends in the storage and backup software market is the adoption of artificial intelligence (AI) based applications which can create, store and protect data. Artificial intelligence is an area of computer science which simulates human intelligence. AI based applications create information on their own and verify the source of information before composing bits of knowledge to a database. These applications can also refine database management policies, align data to database capabilities and assess metadata across organization storage infrastructure. For instance, Commvault, one of the major vendors in the field of storage and backup software, introduced a new kind of backup and recovery software, which works with AI.

Storage And Backup Software Global Market Report 2022 is one of a series of new reports from The Business Research Company that provides storage and backup software market overviews, analyzes and forecasts market size and growth for the global storage and backup software market, storage and backup software global market share, storage and backup software global market segments and geographies, storage and backup software global market players, storage and backup software market leading competitor revenues, profiles and market shares. The storage and backup software market report identifies top countries and segments for opportunities and strategies based on market trends and key competitors' approaches.

TBRC's Storage And Backup Software Global Market Report 2022 includes information on the following:

Data Segmentations: Market Size, Global, By Region and Country, Historic and Forecast, and Growth Rates for 60 Geographies

Key Market Players: Dell Inc, HPE, Netapp, Hitachi, IBM, Huawei, International Business Machines Corporation, Toshiba Corporation, Pure Storage Inc, Nutanix Inc, Micron Technology, Tintri, Inc, Cloudian, Inc, Quantum Corporation, Samsung Electronics, Fujitsu Ltd, VMware, Inc, Nexenta Systems, Netgear Inc, Inspur, Oracle, Acronis, Commvault, CA Technologies.

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

And so much more.
