The growing technological advancements are shaping the cloud based contact center market trends. Major companies operating in the cloud based call center sector are focused on developing technological solutions for cloud based call centers to strengthen their position in the industry. For instance, TechSee, a US-based technology and technical support company that specializes in visual technology and augmented reality launched TechSee Smart based on artificial intelligence technology. A smartphone-calling consumer can now send still photographs or video to the contact center, which are subsequently analyzed by the TechSee Smart platform
